Dear David:

I received your book on Colonial and Early American Coins with its impressive metal plaque and wish to comment on its DEDICATION. You have "dedicated" yourself to researching and writing on this and many other subjects. All of us recognize that kind of achievement as a very remarkable human accomplishment. In your new book you swept up all of the prior thinking and publications of others into further developing and organizing a beautiful refinement of a fascinating subject. For you to dedicate that book to me was generous and kind. I am most thankful. Thrive. Eric
